

IPM RFQ & RFQ Data Extractor

For IPM Project Management

www.ipmglobal.net

WHAT DOES IPM RFQ & RFI DATA EXTRACTOR DO?

IPM RFQ & RFI Data Extractor is an exciting new tool to extend the capabilities of IPM's RFI and RFQ functions. As an additional product available in the IPM suite, the IPM RFQ & RFI Data Extractor takes RFI and RFQ information from incoming emails and automatically updates the relevant record in IPM.

Simply use the IPM RFQ & RFI Data Extractor to send your RFQ or RFI from an existing email account, or create a shared email account for you team to use. Once each vendor replies with their answer or quote, the Data Extractor automatically files the relevant information from the email reply into the IPM database.

IPM IPM RFQ & RFI DATA EXTRACTOR NOW GIVES YOU THE ABILITY TO:

- All relevant RFI and RFQ information is stored quickly and efficiently.
- RFI and RFQ information is available on a central database to all relevant IPM users as soon as it reaches the inbox.
- RFI and RFQ information is not lost in the volume of email communication or left in absent staff member's inboxes.

Send your RFQ or RFI from an existing email account and when vendors reply with a quote it automatically updates information into the IPM database.
